

Schedule 1
FORM ECSRC – K
ANNUAL REPORT
PURSUANT TO SECTION 98(1) OF THE SECURITIES ACT, 2001

For the financial year ended December 31, 2017

Issuer Registration number GRENLEC27091960GR

Grenada Electricity Services Limited

(Exact name of reporting issuer as specified in its charter)

Grenada W.I

(Territory of incorporation)

Grand Anse, St. George's, P.O. Box 381.

(Address of principal office)

REPORTING ISSUER'S:

Telephone number (including area code): 473-440-3391

Fax number: 473-440-4106

Email address: mail@grenlec.com

(Provide information stipulated in paragraphs 1 to 14 hereunder)

Indicate whether the reporting issuer has filed all reports required to be filed by section 98 of the Securities Act, 2001 during the preceding 12 months

Yes X No _____

Indicate the number of outstanding shares of each of the reporting issuer's classes of common stock, as of the date of completion of this report.

CLASS	NUMBER
Ordinary	19,000,000

SIGNATURES

A Director, the Chief Executive Officer and Chief Financial Officer of the company shall sign this Annual Report on behalf of the company. By so doing each certifies that he has made diligent efforts to verify the material accuracy and completeness of the information herein contained.

The Chief Financial Officer by signing this form is hereby certifying that the financial statements submitted fairly state the company's financial position and results of operations, or receipts and disbursements, as of the dates and period(s) indicated. The Chief Financial Officer further certifies that all financial statements submitted herewith are prepared in accordance with International Accounting Standards consistently applied (except as stated in the notes thereto) and (with respect to year-end figures) including all adjustments necessary for fair presentation under the circumstances.

INFORMATION TO BE INCLUDED IN FORM ECSRC-K

1. **Business.**

Provide a description of the developments in the main line of business including accomplishments and future plans. The discussion of the development of the reporting issuer's business need only include developments since the beginning of the financial year for which this report is filed.

The passage of the 2016 Electricity Supply Act and Public Utilities Regulatory Commission Act on August 1, 2016 continued to hover over the Company's operations. These two statutes fundamentally altered the regulatory and operating framework. However, the supporting regulations establishing the basis and mechanisms for calculating the Company's rates have not been produced. On October 7, 2017 the names of the Commissioners for the PURC were gazetted but up to the end of the first quarter of 2018 there was no indication that they had begun to function.

Having filed a share repurchase demand with the GoG on March 22, 2017 in accordance with the provisions of the 1994 Share Purchase Agreement (SPA) Grenada Private Power (GPP) owners of 50% of Grenlec's shares then commenced arbitration proceedings against the GoG in May of 2017. The arbitration proceedings are being heard by the World Bank's International Centre for Settlement of Investment Disputes (ICSID)

On March 1, 2018, GPP and WRB made their initial filing with the ICSID tribunal with the GoG having until the end of June to file their response. It is likely that the proceedings will extend into 2019.

On December 29, 2017 an amendment to the 2016 ESA was gazetted which made a radical change to Section 70. Under the 2016 ESA all participants in the electricity sector were required to allocate 5% of gross profits to corporate social responsibility. The amendment requires network licensees to contribute 5% of their pre-tax profits. Grenlec being currently the only network licensee obtained a legal opinion on the amendment. As a result, Grenlec has filed a legal challenge to the amendment on the grounds that it constitutes an unconstitutional taking of the Company's property which is protected under Section 6 of the Grenada Constitution. The first hearing in Grenada's High Court is scheduled for May 3, 2018.

KWh sales growth in 2017 was 1.6%. Overall kWh's sold increased by 3.09M units, with the commercial sector accounting for 1.39M and the residential sector for 1.79M.

The average electricity charge per kWh in 2017 increased by 6.6% to \$0.81 compared to \$0.76 in 2016, despite having the average fuel price per imperial gallon increased by 22.7% to \$5.63 from \$4.59. The Company's non-fuel rates continue to be that of January 1, 2016, as regulations which speak to what the electricity rates will be have not yet been published. Over the 23 years since privatization in 1994 the domestic non-fuel rate has increased by a nominal 5.9 percent resulting in a real decline in rates of 33.3 percent.

2. Properties.

Provide a list of properties owned by the reporting entity, detailing the productive capacity and future prospects of the facilities. Identify properties acquired or disposed of since the beginning of the financial year for which this report is filed.

Property Site	Productive Capacity
Woodlands	Warehouse
Grand Anse	Distribution Department
Grand Anse	Administration Department
Queen's Park	Production Department
Plains	Solar PV / Warehouse
Carriacou & Petite Martinique	Distribution / Production / Administration Departments

3. Legal Proceedings.

Furnish information on any proceedings that were commenced or were terminated during the current financial year. Information should include date of commencement or termination of proceedings. Also include a description of the disposition thereof with respect to the reporting issuer and its subsidiaries.

There were no legal proceedings outstanding as at year end that could materially impact on the Company's position.

4. Submission of Matters to a Vote of Security Holders.

If any matter was submitted to a vote of security holders through the solicitation of proxies or otherwise during the financial year covered by this report, furnish the following information:

- (a) The date of the meeting and whether it was an annual or special meeting.

An Annual General Meeting (AGM) was held on May 10, 2017.

- (b) If the meeting involved the election of directors, the name of each director elected at the meeting and the name of each other director whose term of office as a director continued after the meeting.

The following Directors were elected at the Annual General Meeting:

Mr. Alister Bain
Ms. Anthea DeBellotte
Mr. Ashton Frame
Mr. Lawrence Samuel

Eight Directors were nominated in accordance with the Memorandum and Articles of Association. This allows Grenada Private Power Limited to nominate six persons, the Government of Grenada to nominate one person and for the employees to nominate one person. The Government of Grenada nominated Mr Duane Noel as their representative. Ms Linda George-Francis was nominated / elected by the employees. The Directors nominated were as follows:

Mr. G. Robert Blanchard, Jr. - GPP
Mr. Robert Blenker - GPP
Mr. Robert Curtis – GPP
Mr. Edward Parry - GPP
Mr. Ronald Roseman - GPP
Mr. Murray Skeete - GPP
Mr. Duane Noel – Government Representative
Ms Linda George-Francis – Employees Representative

- (c) A brief description of each other matter voted upon at the meeting and a statement of the number of votes cast for or against as well as the number of abstentions as to

each such matter, including a separate tabulation with respect to each nominee for office.

PKF were re-appointed as Auditors for the year ending December 31, 2017 on a majority vote by a show of hands at the Annual General Meeting.

- (d) A description of the terms of any settlement between the registrant and any other participant.

None

- (e) Relevant details of any matter where a decision was taken otherwise than at a meeting of such security holders.

None

5. Market for Reporting issuer's Common Equity and Related Stockholder Matters.

Furnish information regarding all equity securities of the reporting issuer sold by the reporting issuer during the period covered by the report.

Eastern Caribbean Securities Exchange:

GRENLEC listed its shares on the ECSE in July, 2008 which means that stockholders have a ready market for the buying and selling of shares.

6. Financial Statements and Selected Financial Data.

Attach Audited Financial Statements, which comprise the following:

For the most recent financial year

- (i) Auditor's report; and
- (ii) Statement of Financial Position;

For the most recent financial year and for each of the two financial years preceding the date of the most recent audited Statement of Financial Position being filed

- (iii) Statement of Profit or Loss and other Comprehensive Income;
- (iv) Statement of Cash Flows;
- (v) Statement of Changes in Equity; and
- (vi) Notes to the Financial Statements.

7. Disclosure about Risk Factors.

Provide a discussion of the risk factors that may have an impact on the results from operations or on the financial conditions. Avoid generalised statements. Typical risk factors include untested products, cash flow and liquidity problems, dependence on a key supplier or customer, management inexperience, nature of business, absence of a trading market (specific to the securities of the reporting issuer), etc. Indicate if any risk factors have increased or decreased in the time interval between the previous and current filing.

With each passing period without Grenada being significantly affected by a hurricane the Hurricane Reserve increases, and presently stands at \$24M which reduces the main risk exposure associated with post-hurricane recovery. The major risk factors facing the Company continue to be as follows:

- Hurricanes - as clearly established after Hurricane Ivan in 2004 when approximately 90 percent of our distribution system was affected. This continues to be the most immediate and significant risk being faced. This has been partially offset by the strengthening of the distribution system which has been made more robust in the rebuilding period after hurricanes Ivan and Emily. Additionally, the Hurricane Fund of \$23.85M is more than the pre Ivan level of \$14M.
- The 2016 Electricity Supply Act, 2017 Electricity Act and the 2016 Public Regulatory Commission Act
 - The 2016 ESA and the 2016 PURC Acts had commencement dates of August 1, 2016. These Acts fundamentally alter the regulatory and operating framework. Section 71 of the 2016 ESA repealed the Electricity Supply Act, 1994 (ESA 1994). The 2016 ESA separates generation and transmission entities to allow competition in both the generation and distribution areas, and to increase generation by renewable energy. The Act is silent on the issue of whether concessions on customs duties will continue as per the Electricity Supply Act No, 39 of 2013 or be removed altogether. The regulations under the new Act have not yet been promulgated.
 - On March 22, 2017, GPP the holder of 50% of Grenlec's shares filed a demand notice with the GoG in regards to Government's Share Purchase Agreement obligations with GPP. GPP is a subsidiary of WRB Enterprises Inc who have had a Management Contract with Grenlec since 1994.

8. Changes in Securities and Use of Proceeds.

- (a) Where the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved. State briefly the general effect of such modification upon the rights of holders of such securities.

None

- (b) Where the use of proceeds of a security issue is different from that which is stated in the registration statement, provide the following:

- Offer opening date (provide explanation if different from date disclosed in the registration statement)

- Offer closing date (provide explanation if different from date disclosed in the registration statement)

- Name and address of underwriter(s)

- Amount of expenses incurred in connection with the offer

- Net proceeds of the issue and a schedule of its use

- Payments to associated persons and the purpose for such payments

- (c) Report any working capital restrictions and other limitations upon the payment of dividends.

--

9. Defaults upon Senior Securities.

- (a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund instalment, or any other material default not satisfied within 30 days, with respect to any indebtedness of the reporting issuer or any of its significant subsidiaries exceeding 5 per cent of the total assets of the reporting issuer and its consolidated subsidiaries, identify the indebtedness. Indicate the nature of the default. In the case of default in the payment of principal, interest, or a sinking or purchase fund instalment, state the amount of the default and the total arrears on the date of filing this report.

None

- (b) If any material arrears in the payment of dividends have occurred or if there has been any other material delinquency not satisfied within 30 days, give the title of the class and state the amount and nature of the arrears or delinquency.

None

10. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the financial year of the filing. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

1. The quality of earnings;
2. The likelihood that past performance is indicative of future performance; and
3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures taken or to be taken to address unfavourable trends; key performance indicators; and non-financial indicators.

General Discussion and Analysis of Financial Condition

The Company's retained earnings increased from \$16.98M in 2016 to \$22.27M at the end of the financial year 2017. The debt to equity ratio decreased to 51% from 61%. The return on invested capital for the year was 18.9% (2016 - 20%). Other key indicators based on financial covenants in the CIBC FirstCaribbean Loan agreement can be seen in the covenant table below.

Covenant Table

Covenants / Ratios	Covenant Ratio	2017	2016
Current Ratio	$\geq 1.35:1$	2.78:1	2.97:1
Debt Service Coverage Ratio	$\geq 1.75:1$	3.78:1	4.66:1
Funded Debt to EBITDA	$\leq 3:1$	1.37:1	1.24:1

Trade receivables increased by \$1.34M (9.1%) in 2017 as a result of higher fuel prices. The GoG's receivables remained current for the entire year and ended with a balance of \$1.15M. Debtor days remained virtually the same at 36.35 at December 2017 in comparison to 36.37 at the end of 2016.

Total assets of \$163.48M was \$8.12M more than the \$155.36M at the end of 2016. Overall, the indicators reflect the healthy financial condition of the Company as it continues to operate well within all of its stipulated debt covenants.

Liquidity and Capital Resources

Provide a narrative explanation of the following (but not limited to):

- i) The reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations.
- ii) Any known trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, the issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.
- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.
- vi) Factors specific to the issuer and its markets that the issuer expects will affect its ability to raise short-term and long-term financing, guarantees of debt or other commitment to third parties, and written options on non-financial assets.
- vii) The relevant maturity grouping of assets and liabilities based on the remaining period at the balance sheet date to the contractual maturity date. Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of

capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

Discussion of Liquidity and Capital Resources

Capital expenditure of \$12.75M in 2017 was fully financed from internally generated funding. The main areas of expenditure were plant and machinery inclusive of the distribution network and motor vehicles. The Company has over the years only utilized external financing for major capital expenditure such as new generation.

Cash flow generated from operations of \$19.99M in 2017 was below the \$26.63M of 2016 as higher fuel prices resulted in increasing trade receivables and lower profitability.

Investing activities had a net outflow of \$10.79M as expenditure related to new assets amounted to \$12.29M which was in excess of the depreciation charge for the year of \$6.21M.

Cash utilized in financing activities of \$11.88M was significantly below the \$35.94M of 2016. In 2017 there was only the regular dividends and principal repayments on the CIBC loan as compared to special and regular dividends and repayment of existing and prior borrowings in 2016.

The overall decrease in cash and cash equivalents for the year was \$2.69M.

The Company's projected cash flow for 2018 which considers all of its known commitments for the year indicates a capacity to sustain its operations.

Off Balance Sheet Arrangements

Provide a narrative explanation of the following (but not limited to):

- i) Disclosures concerning transactions, arrangements and other relationships with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of, or requirements for capital resources.
- ii) The extent of the issuer's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support, or expose the issuer to liability that is not reflected on the face of the financial statements.
- iii) Off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the off-balance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

None

Results of Operations

In discussing results of operations, issuers should highlight the company's products and services, facilities and future direction. There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- i) Any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, the extent to which income was so affected.
- ii) Significant components of revenues or expenses that should, in the company's judgment, be described in order to understand the issuer's results of operations.
- iii) Known trends or uncertainties that have had or that the issuer reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls,

Overview of Results of Operations

In 2017 profit before tax of \$20.77M was 10.8% lower than the \$23.28M achieved in 2016. This reduction was due to higher operating costs and a lower fuel cost recovery rate that more than offset the increased non-fuel revenue and lower finance costs.

Non fuel revenue of \$83.29M grew by 1.5% in 2017 over the \$82.04M of 2016. KWh unit growth of 1.6% was solely responsible for this as non-fuel rates remained unchanged in 2017.

The fuel cost recovery rate in 2017 of 100.4% was markedly below that of the prior three years when it ranged from 103.6% in 2016 to a high as 119.3% in 2015. In 2017, fuel prices fluctuated over the first six months before going on a steady upwards trend increasing from \$4.86/IG in June to \$6.58/IG in December. Given the three-month lag in the calculation of the fuel charge it generally meant a fuel cost recovery rate below 100% over that period. The net fuel revenue in 2017 of \$0.27M was well below the \$1.89M of 2016.

Operating expenses in 2017 were \$5.24M more than that of 2016. Partly, responsible for this is the natural fluctuation of expenses based on scheduled maintenance of generators. In 2017 expenses related to overhauls and planned maintenance of engines was \$3.16M higher than that of 2016 as two of the larger generators #'s 3 and 12 had significant maintenance undertaken. Additionally, legal expenses in 2017 were \$0.55M greater than the \$0.64M of 2016. Importantly, total operating expenses in 2017 was 3.3% below budget as expenses continued to be tightly controlled by Management. However, it must be noted that a factor in this regard was legal expenses in 2017 being below the budgeted allocation.

Finance costs decreased by \$1.66M as the borrowings from CIBC FirstCaribbean in 2016 which, consolidated all prior loans at reduced rates had its full impact. There were no new long term borrowings in 2017. At year end 2017 the debt to equity ratio was 0.51 which was lower than the 0.61 at the end of 2016.

A regular dividend of \$9.88M or fifty-two (52) cents per share was paid. The pay-out ratio in 2017, after the annual provision for hurricane reserve was added back, was 57.9 percent and for the period 2010 – 2015 it ranged from a low of 41.5 percent in 2014 to a high of 84.4 percent in 2011. In 2016 the pay-out ratio excluding the special dividend was 53.9 percent. The Company's dividend policy is for a pay-out ratio of 85-90%.

System losses in 2017 of 8.12% though higher than the 7.58% of 2016 remained relatively low. We have maintained system losses, which have a direct and significant impact on financial performance, near or below 8% for the past six years.

Fuel efficiency of 19.02 kWh/IG was 0.56% below the 19.13 kWh/IG of 2016 due to issues with fuel leaks on some generators which were corrected by year end.

Plant availability at Queen's Park of 89% was marginally below the target of 90%. At Carriacou and Petite Martinique they were 87.6% well below their target of 95% due mainly to an engine failure in November 2017. Overall, the Company has continued to maintain a high level of efficiency in its operations.

11. Changes in and Disagreements with Auditors on Accounting and Financial Disclosure.

Describe any changes in auditors or disagreements with auditors, if any, on financial disclosure.

None

12. Directors and Executive Officers of the Reporting Issuer. (*Complete Biographical Data Form attached in Appendix 1 and Appendix 1(a) for each director and executive officer*)

Furnish biographical information on directors and executive officers indicating the nature of their expertise.

13. Other Information.

The reporting issuer may, at its option, report under this item any information, not previously reported in a Form ECSRC – MC report provided that the material change occurred within seven days of the due date of the Form ECSRC – K report. If disclosure of such information is made under this item, it need not be repeated in a Form ECSRC – MC report which would otherwise be required to be filed with respect to such information.

None
