#### INFORMATION TO BE INCLUDED IN FORM ECSRC-K

#### 1. Business.

Provide a description of the developments in the main line of business including accomplishments and future plans. The discussion of the development of the reporting issuer's business need only include developments since the beginning of the financial year for which this report is filed.

2017 saw the first full year result subsequent to the change in our financial year moving to the calendar year basis. As a such, the 2016 financial results reflect the nine months April to December for 2016 compared to the period January to December for 2017.

As a result, the below summary for comparative purpose is presented comparing the full calendar year 2016 on a combined basis to 2017.

We were able to complete the second phase of the broadband upgrade project in 2017. This is a major accomplishment for C&W as we move to transform our customer experience in the Federation. Customers were migrated from the previous entry package of 2MB to 6MB upon the completion of the upgrade of the Broadband network. This upgrade also enabled us to increase the bandwidth that our customers could experience across the board with some customers now able to enjoy speed in excess of 80MB.

In addition to the upgrade of our fixed network, we were also able to launch FLOW TV in October 2017, this is a new product line for the company and is one in which we see significant area for revenue growth. This product have been gaining traction in market driven by the quality of the viewing experience and the content available. As a result of the fixed upgrade, we were able to deliver broadband customer growth of 4% over the previous year and revenue growth of 9%. Fixed voice customers remained relatively flat year on year with revenue declining by 3% as a result of declining fixed voice usage. This trend we expect to continue as more and more customers utilize other VOIP services such as Whatsapp.

We achieved a 3% increase in mobile customers and 5% in mobile revenue. This strong performance was driven by improvement in the performance of our prepaid product aided by the launch of our innovative "Combo" plans that allowed customers to capitalize on the increased value that the plans offered. The launch of LTE in the urban area of both St Kitts and Nevis was also a major contributor as customers were now able to stream at very fast speeds in excess of 40MB depending on their location. Similar improved proposition on postpaid moving to the top tier Data offer of 24GB also drove improvement in the postpaid customer base and revenue.

Enterprise revenue declined year on year mainly driven by the as a result of a reduction in the sales enterprise equipment sales in 2017.

#### 2. Properties.

Provide a list of properties owned by the reporting entity, detailing the productive capacity and future prospects of the facilities. Identify properties acquired or disposed of since the beginning of the financial year for which this report is filed.

| There was no acquisition or disposal of properties during th | e period. |

#### 7. Disclosure about Risk Factors.

Provide a discussion of the risk factors that may have an impact on the results from operations or on the financial conditions. Avoid generalised statements. Typical risk factors include untested products, cash flow and liquidity problems, dependence on a key supplier or customer, management inexperience, nature of business, absence of a trading market (specific to the securities of the reporting issuer), etc. Indicate if any risk factors have increased or decreased in the time interval between the previous and current filing.

As we operate in a hurricane zone, we are susceptible to major weather systems such as Hurricanes Irma and Maria that impacted the islands of BVI, Dominica, Anguilla and Turks in 2017. To mitigate this, we perform regular risk assessments, in addition, we invest in standby power plants to mitigate certain risks. Other business risks such as liquidity and suppliers are mitigated by leveraging our parent company's purchasing power. Key supplier relationships are managed actively. We have not seen change in any risk factor during the year and do not foresee an imminent risk to our operations for the foreseeable future other than the risk that natural disasters pose to our Business and Customers which is outside of our control.

| (a) | Where the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved. State briefly the general effect of such modification upon the rights of holders of such securities. |

#### Management's Discussion and Analysis of Financial Condition and Results of Operation.

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the financial year of the filing. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

1. The quality of earnings;

2. The likelihood that past performance is indicative of future performance; and

3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures taken or to be taken to address unfavourable trends; key performance indicators; and non-financial indicators.

#### General Discussion and Analysis of Financial Condition

2017 presented much opportunity for C&W, with the significant investment outlaid, we were able to upgrade our fixed and mobile platform which enabled us to deliver growth year on year in both segments. The launch of our IP TV product was also a significant achievement. With these investments, the Company is poised to continue on its growth profile. The macro reports on future growth in the economy is one that we are pleased with and will strive to achieve similar growth by continuing to deliver superior products and services to our customers.

To achieve the above growth we will continue to invest in the network to drive innovation while offering world-class services to our customers.

The Company utilizes Group CwC Treasury to manage its liquidity in order to meet its financial obligations regarding the servicing and repayment of debt. At December 2017, the Company had no third party debt outstanding.

#### Liquidity and Capital Resources

Provide a narrative explanation of the following (but not limited to):

- i) The reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations.
- ii) Any known trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, the issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.
- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.
- vi) Factors specific to the issuer and its markets that the issuer expects will affect its ability to raise short-term and long-term financing, guarantees of debt or other commitment to third parties, and written options on non-financial assets.
- vii) The relevant maturity grouping of assets and liabilities based on the remaining period at the balance sheet date to the contractual maturity date. Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

#### Discussion of Liquidity and Capital Resources

| The Company utilizes Group CwC Treasury to manage its liquidity in order to meet its financial obligations regarding the servicing and repayment of debt and strategic initiatives. At 31, December 2017, the Company had no third party debt outstanding.  |  |
|---|--|
| At 31 December 2017, the Company had cash and cash equivalents of \$3m. These amounts are highly liquid and are a significant component of the Company's overall liquidity and capital resources. Liquidity forecasts are produced on a regular basis to ensure the utilization of current facilities is optimized, to ensure covenant compliance and that medium-term liquidity is maintained for the purpose of identifying long-term strategic funding requirements. |  |
| apital expenditures for the year was \$9.8m. Projects such as FLOW TV, Super-fast Broadband and Mobile LTE were the main intributors for the capital spend.   |  |

#### Off Balance Sheet Arrangements

Provide a narrative explanation of the following (but not limited to):

- i) Disclosures concerning transactions, arrangements and other relationships with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of, or requirements for capital resources.
- ii) The extent of the issuer's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support, or expose the issuer to liability that is not reflected on the face of the financial statements.
- iii) Off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the offbalance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

#### Results of Operations

In discussing results of operations, issuers should highlight the company's products and services, facilities and future direction. There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- Any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, the extent to which income was so affected.
- ii) Significant components of revenues or expenses that should, in the company's judgment, be described in order to understand the issuer's results of operations.
- iii) Known trends or uncertainties that have had or that the issuer reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls,

#### Overview of Results of Operations

2017 saw the first full year result subsequent to the change in our financial year moving to the calendar year basis. As such, the 2016 financial results reflect the nine months April to December for 2016 compared to the period January to December for 2017.

As a result, the below summary for comparative purposes is presented by comparing the full calendar year 2016 on a combined basis to 2017.

We were able to complete the second phase of the broadband upgrade project in 2017. This is a major accomplishment for C&W as we move to transform our customer experience in the Federation. Customers were migrated from the previous entry package of 2MB to 6MB upon the completion of the upgrade of the Broadband network. This upgrade also enabled us to increase the bandwidth that our customers could experience across the board with some customers now able to enjoy speed in excess of 80MB.

In addition to the upgrade of our fixed network, we also launched FLOW TV in October 2017, this is a new product line for the company and is one in which we see significant area for revenue growth. As a result of the fixed upgrade, we were able to deliver broadband customer growth of 4% over the previous year and revenue growth of 9%. Fixed voice customers remained relatively flat year on year with revenue declining by 3% as a result of declining fixed voice usage. This trend we expect to continue as more and more customers utilize other VOIP services such as Whatsapp.

| We achieved a 3% increase in mobile customers and 5% in mobile revenue. This strong performance was driven by improvement in the performance of our prepaid product aided by the launch of our innovative "Combo" plans that allowed customers to capitalize on the increased value that the plans offered. The launch of LTE in the urban area of both St Kitts and Nevis was also a major contributor as customers were now able to stream at very fast speeds in excess of 40MB depending on their location. Similar improved proposition on postpaid moving to the top tier Data offer of 24GB also drove improvement in the postpaid customer base and revenue. |
|--|
| Enterprise revenue declined year on year mainly driven by the one-off equipment sales that were archived in 2016.  |
| Gross Profit increased in 2017 by 3% as a result of a reduction in direct costs of 14%. This reduction was mainly driven by a decrease in the sale of enterprise equipment in 2017, which are low margin products.   |
