- a. The bidding period(s) will start at 9:00 am and end at 12:00 noon on auction days.
- b. Each investor is allowed one (1) bid with the option of increasing the amount being tendered for until the close of the bidding period or reducing the interest rate.
- c. The minimum bid quantity is \$5,000.00.
- d. The bid multiplier will be set at \$1,000.00.
- e. The date of issue for each auction is equivalent to the stated settlement date of that auction.
- f. The maximum bid price on Treasury Bond VCG070926 being auctioned will yield 7.0 percent.
- g. The price of the issue will be determined by a Uniform Competitive Price Auction.
- h. Payment of principal and interest on Treasury Bond VCG070926 will be made semi-annually on March 13 and September 13 respectively, with the first principal and interest payment due starting on March 13, 2020 until maturity.
- i. Yields will not be subject to any tax, duty or levy of the participating Governments of the Eastern Caribbean Currency Union (ECCU).
- j. Investors can participate in the issue through the services of any of the Licensed Intermediaries who are members of the Eastern Caribbean Securities Exchange.
- k. In 2018 Moody's Investor Services maintained the Government of St. Vincent and the Grenadines outlook at stable and affirmed the rating of B3.
- l. The Treasury Bond will be issued on the Regional Government Securities Market (RGSM) and listed on the Eastern Caribbean Securities Exchange (ECSE).

The Current List of Licensed Intermediaries are:

- Bank of Nevis Limited
- Bank of St. Vincent and the Grenadines Ltd.
- Bank of St. Lucia Ltd.
- St. Kitts Nevis Anguilla National Bank Limited
- First Citizens Investment Services Ltd. – Located in Saint Lucia
- Grenada Co-operative Bank Limited

3.0 MACROECONOMIC PERFORMANCE

3.0.1 Overview of Economic Growth Prospects for 2018

Data for 2018 indicates a moderate growth in real output of 2.0 percent. The improvement in economic activity was influenced mainly by developments in the Tourism, Manufacturing, Wholesale & Retail and Fishing sectors. The second largest contributor to gross value added (of 15.2 percent) was the Wholesale & Retail Trade Sector. The sector grew by 5.7 percent on account of expansion in domestic activity evidenced by the 7.2 percent increase in merchandise imports during the period.

The Agriculture sector recorded a 7.8 percent increase in Gross Value Added. The improvement resulted from increased production of Other Crops which benefited from improved weather conditions and greater support from the Ministry of Agriculture. The Manufacturing sector recorded a 6.9 percent increase in Gross Value Added. The improvement resulted from increased production of galvanise reflecting greater demand for building supplies in hurricane-affected islands. The contribution of the Real Estate Renting and Business Services sector increased marginally in 2018 to 16.5 percent indicative of the limited activity in the domestic economy.

Value added in the Hotels and Restaurants sector, proxied by visitor arrivals remained flat and accounted for the minimal growth in the tourism sector. Meanwhile, lower spending on construction related activities on the Argyle Airport Project and various tourism projects accounted for the slowdown growth in the construction sector. The Fishing sector also declined partly on account of being in the trough of the ‘fish cycle’ and gaps in data collection during the period.

4.0 GOVERNMENT FISCAL OPERATIONS

The Central Government fiscal operations for the first half of 2019 worsened when compared to the same period in 2018. Current Revenue increased by 5.3 percent to \$283.25 million, while Current Expenditure grew by 6.8 percent to \$295.28 million. Consequently, the Current Balance recorded a deficit of \$12.03 million, compared to a deficit of \$7.68 million recorded for the same period in 2018. Consequently, the Current Balance recorded a deficit of \$12.03 million. Capital Expenditure for the period amounted to \$16.23 million, up from the \$11.97 million recorded for

the same period in 2018. During the period under review, the Overall Balance contracted moving from a deficit of \$4.29 million in 2018 to a deficit of \$20.65 million in 2019 reflecting the increase in Current and Capital Expenditure.

Table 3: Summary of Fiscal Outturn June 2019 compared with June 2018

Source: ERPU, Ministry of Finance

The major categories of tax revenue increased during the first half of 2019 except for Taxes on Goods & Services, which declined marginally. Receipts from Taxes on Income and Profits increased marginally by 0.9 percent to \$65.28 million, this was due to higher collections from Personal Income Tax (0.5 percent) and Non-Resident Taxes (22.5 percent) as receipt from Corporation Tax decreased during the period. Intake from Taxes on Property grew by 23.1 percent

to \$11.46 million during the period. This was mainly the result of higher receipts from Stamp Duty on Property and Alien Land Holding Licence. Collections from taxes on goods and services increased by 8.6 percent to \$87.91 million. This was mainly as a result of a \$5.80 million collected during the period for Telecommunications and Broadcast Licence. Additionally, Revenue from Value Added Tax increased by 9.5 percent to \$47.79 million reflecting an uptick in domestic business activities. Revenue from International Trade Taxes declined marginally by 0.6 percent, to \$75.68 million. Capital Revenue and Grants as at June 2019 amounted to \$7.60 million, down 50.5 percent from the amount collected in the corresponding period in 2018 mainly due to an amount of \$9.00 million recorded as Other Capital Receipts, during the period.

In 2019, Current Expenditure grew by 6.8 percent to \$295.28 million on account of higher outlays on all major categories of expenditure. Payment of Wages and Salaries amounted to \$144.36 million and the Employer's Social Security Contribution to \$6.72 million. The 5.8 percent increase in spending on Wages and Salaries was mainly due to the 1.5 percent salary increase paid to public servants on top of the 1.0 percent for the period July-December 2018. Interest Payments increased during the period by 1.0 percent to \$25.89 million, as a result of higher payments on the external component which is reflective of the increase in the External Debt stock. Outlays on Transfers increased by 9.0 percent to \$85.66 million mainly due to higher amounts expended on pension benefits (8.5 percent). Grants to Other Agencies and Social Welfare payments also increased by 7.4 percent and 5.2 percent, respectively. Investment in Capital Expenditure stood at \$16.22 million, an increase of 35.6 percent from the comparable period in 2018. Capital Spending, though improved, remains relatively low mainly because of slow processing of journals to account for expenditure and similarly slow implementation of some projects.

5.0 PUBLIC DEBT

Data of the total public debt outstanding as at December 31st, 2018 stood at \$1.654 billion, a 5.4 percent increase over same period 2017. Of this amount, total domestic debt accounted for \$576.5 million while external debt accounted for \$1.078 billion, these two components represented 34.8 percent and 65.2 percent of the total debt stock respectively. Total Central Government debt for 2018 constituted 84.8 percent of the total debt stock outstanding, the remaining 15.2 percent was

owed by public corporations. During the year \$105.3 million were issued in bonds and notes of varying tenors while \$33.9 million in bullet bonds and notes matured and were fully repaid using contributions from the sinking fund.

December 31st 2018 saw significant movements in the domestic accounts payable from \$30.7 percent to \$72.7 million when compared to same period 2017, an increase of 137.0 percent as central government subsumed the accounts payables of the International Airport Development Company which was formed to oversee the construction of the Argyle International Airport and ceased operations on the Airport's completion. External bond holdings also had significant movements in its 2018 year end outstanding balance by 47.5 percent which increase through the purchasing of securities by non-residents.

5.1 Public Debt as at June 30 2019

Total public debt as at June 2019 stood at \$1.701 billion or 77.7 percent of GDP¹. Of this, total external debt accounted for \$1.064 billion or 48.6 percent of GDP while total domestic debt amounted to \$637.2 million or 29.1 percent of GDP. Central Government total debt amounted to \$1,455.6 billion or 66.4 percent of GDP while Government Guaranteed debt amounted to 257.7 million or 11.2 percent of GDP. Central Government debt comprised 85.5 percent of total debt while the remaining 14.5 percent was debt owed by Public Corporations and guaranteed by the government (Government Guaranteed debt).

The increase in the total public debt by 2.8 percent from December to June was driven by its domestic central government component mainly through the contracting of new loans; the issuance of new bonds and notes and increases in the overdraft facility and accounts payables. Government guaranteed debt registered a 2.5 percent decrease due to the continuous amortization of debt which was more significant than the disbursements recorded for that quarter, see table 2.

¹ Revised Preliminary Gross Domestic Product (GDP) for 2019 is 2190.5

Table 3 : Total Public Debt Dec 2018 compared to June 2019

	June 2019	Dec 2018	Change
	EC\$M	EC\$M	%
Total Public Debt	1,701.70	1,654.90	2.8%
Central Government Debt	1,455.60	1,402.50	3.8%

5.2 Debt Servicing as at June 30, 2019

Total debt service for the first half of the year ended June 2019 amounted to \$86.0 million, representing an increase of 9.5 percent over same period 2018. Of this amount, external debt service totalled \$37.0 million, representing an increase of 3.1 percent over the corresponding figure in June 2018 and 43.0 percent of the total debt servicing for June 2019.

Total domestic debt service for the period under review amounted to \$49.0 million, representing an increase of 14.9 percent over the corresponding figure recorded in June 2018 of \$42.6 million. Increases were recorded in both amortization and interest payments in the amount of 22.3 percent and 2.9 percent respectively.

Contributions to the Sinking Fund increased by 10.4 percent to \$12.4 million as the government continues to make provision for the timely servicing of its future debt obligations during the fiscal year 2019.
