Debt Developments since Tropical Storm Erika

Due to the magnitude of the damages caused by Tropical Storm Erika, and high cost of rebuilding;

the Government of the Commonwealth of Dominica has approached bilateral creditors for some

level of debt relief. However, debt servicing has been and continues to be a top priority, as such;

Government is determined to remain up to date on its obligations and has made the necessary fiscal

adjustments to ensure that all commitments are met on a timely basis.

Since the passage of Storm Erika, only one debt payment which was due in September was not

made. This was as a result of ongoing discussions with the creditor for a moratorium on the debt

service obligations falling due. To date all debt service payments have been made to all other

creditors in a timely manner.

Credit Rating

Since March 2012, the Government of Dominica has been rated by CariCRIS rating Agency at

CariBBB-, which is considered adequate reflecting the relatively low debt servicing ratios.

On September 23, 2015, CariCRIS placed the Government of Dominica on a Rating Watch ó

Developing pending their assessment of the country's creditworthiness following major

infrastructural damage sustained from the passage of Tropical storm Erika on August 27, 2015.

This was followed on 17 November by the Government of Dominica being placed on a Rating

Watch ó Negative.

Notwithstanding the impact of Tropical storm Erika, the Government of Dominica continues to

place a high priority on meeting all its debt obligations on schedule.
