FirstCaribbean International Bank Limited

Consolidated Financial Statements

For the Year ended October 31, 2006 (expressed in thousands of United States dollars)

FIRSTCARIBBEAN

CHAIRMAN'S REVIEW For the year ended October 31, 2006 (All figures in \$US)

I am pleased to announce another very strong year of performance for your Group with net income to equity shareholders of \$170.6 million. This represents growth in core earnings of 24%, excluding the gain on sale of the Republic Bank shares of \$117 million reported last year.

Total revenue increased by \$78 million (18%), excluding the gain on sale of Republic Bank shares, with net interest income being the main driver. Net interest income has risen by \$65 million or 21% over the prior year, driven principally from increases in loan balances as well as the acquisition of our

Loan balances have grown by \$1 billion (22%) over the prior year and now stand at \$5.7 billion.

Operating expenses were 12% above the prior year, due in the main to our acquisition in Curação, one-off transaction related costs and increased depreciation charges associated with our continuing efforts to improve the efficiency and our product offering to customers. Our efficiency ratio (ratio of costs to revenues) was 58.5%, a marked improvement over the prior year of 61.6%, reflecting our continued efforts to improve productivity and manage growth in an effective and

Annualised return on tangible equity for the period was

In accordance with IAS 18 Revenue, fees, such as loan origination and commitment fees that are considered to be an integral part of the effective rate of a financial instrument, are required to be deferred, along with the related direct costs. In previous years, this accounting treatment was not followed as the effects were considered immaterial in any one year. In 2006, this accounting treatment was introduced and resulted in a restatement of the prior year's opening retained earnings of \$29.7 million and a reduction in the prior year's net income to equity shareholders of \$2.8 million.

The Directors have approved the payment of a final dividend of US 3.00 cents which will be payable to shareholders of record on December 30, 2006 on January 10, 2007. An interim dividend of US 2.25 cents was paid, so that the total dividend is US 5.25 cents for 2006, which is an increase of 24% over the 2005 dividend.

On June 28, 2006, Barclays and CIBC executed a purchase and sale agreement with respect to the sale by Barclays of its 43.7% interest in FirstCaribbean. We expect that before December 31, 2006 this transaction will proceed and that shortly thereafter shareholders will receive an Offer Circular from CIBC to purchase their shares. The offer will be made solely to satisfy legal requirements as CIBC has publicly stated that it is strategically important that FirstCaribbean maintains a strong minority. Shareholders should expect to receive a Directors' Circular relating to the offer by CIBC in relation to the acceptance or rejection of the offer.

We believe we have made significant progress and achieved commendable results in 2006 and are particularly gratified that we have expanded our footprint by entering the Curação market. We thank our customers and our people throughout the region for their loyalty and support.

Michael K. Mansoor Chairman

FORWARD-LOOKING STATEMENT DISCLOSURE.

FORWARD-LOOKING STATEMENT DISCLOSURE.

This report contains forward-looking statements, including statements about our financial condition, results of operations, earnings outlook, asset quality trends and profitability. Forward-looking statements provide management's current expectations or forecasts of future events end, by their nature, are subject to assumptions, risks and uncertainties. Although management believes that the expectations and forecasts reflected in these forward-looking statements are reasonable, actual results could differ materially from those contained in or implied by such forward-looking statements due to a variety of factors includings: (1) changes in interest rates; (2) changes in the condition of the local economies in which we have significant operations or assets, which could, among other things, materially impact credit quality trends and our ability to generate loans; (4) increased competitive pressure among financial services companies; (5) the inability to successfully execute strategic initiatives designed to grow revenues and/or manage expenses; (6) consummation of significant business combinations or divestitures; (7) operational or risk management failures due to technological or other factors; (8) heightened regulatory practices, requirements. Forward-looking statements are not opurantees of future performance and should not be relied upon as representing management's views as of any subsequent date. We do not assume any obligation to update these forward-looking statements.
