RECENT DEVELOPMENTS – FINANCIAL SECTOR

Regionally, the economies have taken a battering since September 2008, and they still continuing to. In the case of St. Vincent and the Grenadines, the collapse of the regional financial behemoth, CL Financial, and the demise of the subsidiary insurance entities of CLICO (Trinidad), CLICO International Limited (CIL) and British American Insurance Company (BAICO) have caused immense economic dislocation, loss and damage. The aggregate exposure of liabilities from CLICO and BAICO in the ECCU area amounts to almost EC \$2 billion. In St. Vincent and the Grenadines, the liabilities exposure is in excess of EC \$375 million or some 17 percent of its GDP. Individual policy-holders, companies, banks, credit unions and the National Insurance Services across the ECCU have suffered adversely. Progress has been made towards at least a partial resolution of the CLICO-BAICO debacle.

British-American Insurance

Much work has been done for policyholders of BAICO and two important initiatives have borne fruit.

First, 189 persons were paid a total of EC\$144,000 from the Fund established to pay BAICO's health insurance claims. Second, on June 29, 2012 it was announced that, after an extensive bidding process, Sagacor Life Inc had agreed to purchase BAICO's traditional life insurance business. As such, following the Regulatory and Court approval process, and the transfer to Sagacor which is expected to be completed during the first quarter of 2013, policyholders once again will be able to operate their policies. Additionally, after much toiling in bilateral and regional fora, the Government of the Republic of Trinidad and Tobago confirmed in early July 2012 that a further US\$100 million would be made available for BAICO annuity policyholders through various sources over the coming months. The first tranche of US\$36 million of this pledge was received from the Government of Trinidad and Tobago, mainly from the CARICOM Petroleum Fund.

The receipt of the first tranche of funds marked the commencement of the ECCU Policyholders' Relief Programme. Under Phase 1 of the Programme, holders of BAICO's Flexible Premium Annuity (FPA) Policies in the ECCU received a payment equivalent to their account balance at August 1, 2009, up to EC \$30,000, as well as a refund of any premiums they have paid since that date. The Government was committed to act quickly in establishing the infrastructure necessary to facilitate large volumes of applications in a very short period and payments were made on December 10th, 11th and 12th, 2012. Policyholders who missed those payments on those dates will still have the opportunity to apply and receive their payments.

It is expected that in the first half of 2013, subject to funding being made available, under Phases 2 and 3 of the Programme, Executive Flexible Premium Annuity (EFPA) and Flexible Premium Annuity II (FPAIL) policyholders will receive payments.

Phase Two will cover those Executive Flexible Premium Annuity (EFPA)/Flexible Premium Annuity II (FPA II) policyholders with Principal Balances up to EC \$30,000.

Phase Three will involve payment to all those EFPA/FPA II policies with Principal Balances over EC \$30,000, but up to a maximum of EC \$150,000. No payment will be made in respect of any Principal Balance of above EC \$150,000 from the resources provided by the Government of Trinidad and Tobago.

Policyholders with Principal Balances in excess of EC \$150,000 and who do not receive their full principal payments will have their policies addressed from the proceeds of any litigation against BAICO and/or its principal officeholders.

During the past year, BAICO's judicial managers have commenced numerous legal proceedings to recover funds from various parties. Among these is a claim under a Promissory Note for over US\$50 million against CL Financial.

CLICO International

In the matter of CLICO International Life (CIL), progress is less advanced, in part because of numerous delays in the appointment of a Judicial Manager which did not take place until April 2011. The Judicial Manager, Deloitte Consulting, has filed a number of reports with the various Courts in the region, noting a substantial shortfall in assets as compared to liabilities. The Judicial Manager has spent much of 2012 seeking support for a restructuring plan, but the deterioration in financial markets meant that experts could no longer support such a plan.

The Judicial Manager now continues to press forward with exploring options for these policyholders, supported in their work to so do by the ECCU Governments. Meanwhile, the government is engaging further the Government of Barbados on other possible options going forward.

St. Vincent and the Grenadines Building and Loan Association

On February 1st, 2013, the Financial Services Authority (FSA), an independent regulatory agency of the Government, assumed management of the St. Vincent and the Grenadines Building and Loan Association in an effort to address deficiencies and restore confidence in the Association. The FSA is working along with an asset management consultant from the World Bank to address the issues facing the Association. The objective of the intervention is to correct any deficiencies and restructure key aspects of the business operations and infrastructure and design a sustainable business model.
