

Public Announcement

The Eastern Caribbean Securities Exchange (ECSE) Group, in an effort to improve its operational efficiency and to enhance customer service, is preparing to introduce a new modern IT infrastructure.

To complement this project, the ECSE is seeking to obtain current information from investors. As a part of this exercise, each investor will receive a customer information form for completion. The information collected will be used to update the existing registry records for migration to the new IT system. This is important to enable the full utilisation of features of the new system, and to ensure compliance with relevant regulations.

To help us to serve you better, kindly complete and return the Investor Information Form upon receipt.
