INFORMATION TO BE INCLUDED IN THE REPORT

1. Financial Statements

Provide quarterly Financial Statements in accordance with International Accounting Standards. The format of the financial statements should be similar to those provided with the registration statement. Include the following:

- (a) (Condensed Balance Sheet as of the end of the most recent financial year and just concluded quarter.
- (b) Condensed Statement of Income for the interim three, six and nine months of the current financial year and corresponding period in the previous financial year.
- (c) Condensed Statement of Cash Flows for the interim three, six and nine months of the current financial year and the corresponding period in the previous financial year.
- (d) Examples of financial data items to be included in constructing financial statements for various types of businesses are provided in Parts A-D. These items are meant to serve as guidelines only.
- (e) By way of *Notes to Condensed Financial Statements*, provide explanation of items in the financial statements and indicate any deviations from generally accepted accounting practices.

2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Discuss reporting issuer's financial condition, changes in financial condition and results of operations during the reporting period. Discussion of material changes should be from the end of the preceding financial year to the date of the most recent interim quarterly report. The broad areas of discussions should centre around liquidity, capital resources and results of operations. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

(a) Liquidity

Identify any known trends or commitments, demands, events that will result in or that are reasonably likely to result in the reporting issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course

of action that the reporting issuer has taken or proposes to take to remedy the deficiency.

Liquidity levels increased significantly since the end of the financial year. The influx is due to a growth in customer deposits throughout the banking subsidiaries particularly the offshore bank. This is accompanied by low demand for loan facilities and limited suitable investment opportunities

(b) Capital Resources

Describe the reporting issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments. Describe any material trends, favourable or unfavourable in the reporting issuer's capital resources and any expected change in mix. The discussion should consider changes between equity, debt and any off-balance sheet financing arrangements.

The Group does not foresee any significant capital expenditure in the near future. The ECFH building is almost fully completed and has been partially occupied by the Group's offshore bank-Bank of St. Lucia International.

(c) Results of Operation.

Describe any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and in each case indicate the extent the income was so affected. Describe any known trends or uncertainties that have had or that the reporting issuer reasonably expects will have a material favourable or unfavourable impact on net sales or revenues or income from continuing operations. If the reporting issuer knows of events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), the changes in relationship should be disclosed.

The Group reported profits after tax of \$18.7M for the half year ended June 30, 2013. This is a marked improvement from the significant losses sustained in the prior period which resulted from loan loss provisioning within the Group's largest subsidiary -Bank of St. Lucia Limited. The thorough provisioning exercise in the prior year gave rise to a more transparent portfolio and loan losses going forward are expected to remain within reasonable levels.

3. Disclosure of Risk Factors.

Provide a discussion of the risk factors that may have an impact on the results from operations or on the financial conditions. Avoid generalised statements and only include factors that are unique to the company. Typical risk factors include untested products, cash flow and liquidity problems, dependence on a key supplier or customer,

management inexperience, nature of business, absence of a trading market (specific to the securities of the reporting issuer), etc. Indicate if any risk factors have increased or decreased in the time interval between the previous and current filing.

The ECFH Group continued to face challenges during the second quarter of 2013 on both the international and domestic landscapes.

The significant risks to which the Group is exposed include credit risk, liquidity risk, market risk, operational risk, foreign exchange risk, and reputation risk. The Group ensures that risk mitigation in any one area does not inadvertently increase exposure in other areas.

Credit Risk

Credit risk is determined to be the largest single risk faced by the ECFH Group. At June 30, 2013, credit activity (loans and investments) amounted to approximately 74% of total assets as compared 77% at the end of the same month of the previous year

During the period under review, the Group continued to monitor the quality of loans being approved, conducting credit risk reviews on all lending over a stipulated dollar value and analysis on loans approved to ensure general compliance with approved credit risk management guidelines. Reviews of the quality and performance of the credit portfolio are undertaken on a regular basis to identify trends and concentrations and take corrective action as necessary. New guidelines for provisioning were approved by the Board and are being implemented. The Recoveries Committee continuously monitors and reviews delinquency levels.

The ratio of non-productive loans to total loans increased significantly at June 30, 2013 when compared to the position as at the end of the same month of the previous month. Significant efforts have been made to reduce the non-productive portfolio including work-outs, write-off, sale of selective non-performing loans and receiverships. While the ECFH Group continues to work with its client through these difficult times, the slow pace of economic recovery may make it difficult to contain the growth in the non-productive portfolio in the next 12 months.

Significant progress has been made during the year to date on collections of previously provided for investments. The June results of BOSL include a credit for the sale of 50% of an instrument, which was fully provided and considered uncollectible. It was sold for half of its face value giving rise to a gain of EC\$2.7M. A buyer is being sought for the remaining half.

In early July BOSL was able finally received full value plus accrued interest for its investment in another regional instrument. A provision of 50% of the \$4.8M investment was made for this in the December 2012 Accounts. The resultant gain of around \$3.5M will be realized in July.

Market Risk

The Group is stepping up its efforts to manage market risks. To improve its management of market risk, the ECFH Risk Management and Compliance Services is using a financial risk simulation model to assess market and liquidity risk and to provide stress testing scenarios. Currently, the model focuses only on Bank of Saint Lucia Limited but it is the intention to expand the financial risk simulation model to include other subsidiaries of the ECFH Group.

Additionally, the portfolio of investments is continually monitored for changes in value of instruments and circumstances of institutions with which the Group conducts business. Investments are subject to market valuations where appropriate and instruments are marked to market in keeping with IFRS

Foreign Exchange Risk

Growth in the offshore banking area has resulted in an increase in the number of foreign currencies being managed which means increased exposure to foreign exchange risk. Foreign exchange exposure is monitored on a regular basis by the respective business units as well as the Asset Liability Committee. There were no instances of unmanaged significant exposure during the period under review.

Operational Risk

The Risk Management and Compliance Services have begun the process of developing and documenting a risk register for the ECFH Group. This exercise will make enterprise risk management more structured and effective throughout the ECFH group.

The Group complies with all Anti Money Laundering acts and other related laws in all jurisdictions that the Group has a business presence. Plans are well advanced to stage an AML month to increase the level of awareness of the laws and challenges faced regarding AML

Liquidity Risk

The Group's liquidity risk is monitored on a regular basis by the Internal Liquidity Committee and the Group Asset/Liability Committee. The Internal Liquidity Committee meets on a more frequent basis than the ALCO to monitor and better manage the Group's liquidity.

Careful liquidity management ensures that the regulatory reserve requirement is always met by the domestic bank and that Capital Adequacy Ratios remain above minimum levels. The Liquidity policy and associated liquidity contingency plans are in place.

Reputation Risk

Reputation risk is the risk that negative publicity regarding the Group's business practices will lead to a loss of revenue or litigation. The Group's reputation; particularly the trust afforded it by customers and counterparties can be irrevocably tarnished due to perceived or real breaches in its ability to conduct business securely and responsibly. In addition, the ECFH Group is responsible for risks associated with the activities of third-party service providers with which they contract.

All risks impact on reputation; therefore, maintaining reputation involves appropriately identifying, analyzing and managing risks that can adversely impact the Group's business. The Group continued to meet its corporate social responsibility encompassing involvement in local communities, employment practices, impact on the environment and sustainable economic and social development, while maintaining strong relationships with business partners.

4. Legal Proceedings.

A legal proceeding need only be reported in the ECSRC - Q filed for the quarter in which it first became a reportable event and in subsequent quarterly reports in which there have been material developments. Subsequent Form ECSRC - Q filings in the same financial year in which a legal proceeding or a material development is reported should reference any previous reports in that year. Where proceedings have been terminated during the period covered by the report, provide similar information, including the date of termination and a description of the disposition thereof with respect to the reporting issuer and its subsidiaries.

There were no legal proceedings during the quarter.

5. Changes in Securities and Use of Proceeds.

- (a) Where the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved. State briefly the general effect of such modification upon the rights of holders of such securities.
- (b) Where the use of proceeds of a security issue is different from that which is stated in the registration statement, provide the following:
 - Offer opening date (provide explanation if different from date disclosed in the registration statement)
 - Offer closing date (provide explanation if different from date disclosed in the registration statement)
 - Name and address of underwriter(s)

Part C

Relevant Financial Items for Broker-Dealers Holding Companies

Items Description

- Cash and cash items
- receivables from brokers and dealers, customers and others
- securities purchased under resale agreements
- financial instruments owned
- fixed assets
- total assets
- short term borrowings including commercial paper
- payable to customers, brokers/dealers (including clearing brokers) and others
- securities sold under agreements to repurchase
- long-term debt
- preferred stock-mandatory redemption
- preferred stock - no mandatory redemption
- common stock
- other stockholder's equity
- total liabilities and stockholder's equity
- revenue from trading activities
- interest and dividends
- commissions
- interest expense
- other sources of revenue
- compensation and employee related expense
- income/loss before income tax
- income/loss before extraordinary items
- extraordinary items, less tax

- cumulative change in accounting principles
- net income or loss
- earnings per share- primary
- earnings per share - fully diluted

Part D

Relevant Financial Data Items for Public Utility and Utility Holding Companies

Item Descriptions

- total net utility plant
- other property and investments
- total current assets
- total deferred charges
- balancing amount for total assets
- total assets
- common stock
- capital surplus, paid in,
- retained earnings
- total common stockholders equity
- preferred stock subject to mandatory redemption
- preferred stock not subject to mandatory redemption
- long term debt, net
- short term notes
- notes payable
- commercial paper
- long term debt-- current portion
- preferred stock-- current portion
- obligation under capital leases
- obligation under capital leases--current portion
- balancing amount for capitalisation and liabilities
- total capitalisation and liabilities
- gross operating revenue
- other operating expense

- total operating expense
- operating income (loss)
- other income (loss), net
- income before interest charges
- total interest charges
- net income
- preferred stock dividends
- earnings available for common stock
- common stock dividends
- total annual interest charges on all bonds
- cash flow from operations
- earnings per share –primary
- earnings per share -fully diluted
