FirstCaribbean International Bank Limited

Chairman's Review For the quarter ended January 31, 2007

(All figures in \$US)

The Group delivered strong first quarter results, with net income attributable to equity holders of the company of \$62.6 million vs \$42.4 million (restated) the prior year comparative. Included in these results, was the impact of a change in policy, as detailed in the notes to these results, which resulted in a one-time gain of \$15.4 million (net of taxes) and the impact of a change an accounting estimate which resulted in additional depreciation of \$1.6 million. Excluding these and other items as disclosed in the notes to these results, comparable earnings increased by 20% over the first quarter of 2006.

Total revenue increased by \$16.6 million (14%), with net interest income being the main driver. Net Interest income has risen by \$19.5 million or 23% over the prior year, driven principally from increases in loan balances as well as the acquisition of our Curacao operations (not included in the comparative period for 2006). This was offset by reductions in other income, mainly driven from lower investment returns.

Loan balances have grown by \$0.9 billion (18%) over the prior year and now stand at \$5.9 billion.

Operating expenses were \$9.1 million or 13% above the prior year (excluding the impact of the one-off gain), due to expenses from our Curacao operations which was not acquired until February 1, 2006, the impact of the change in the estimated useful lives of capitalized software development costs and general increases in staff and other costs. Our efficiency ratio (ratio of costs to revenues) was 56.6% (excluding the one-off gain), a continued improvement over the prior fiscal of 58.5%.

The annualized return on tangible equity for the period was 23.2% (2006 - 20.8%).

The mandatory offer by CIBC Investments (Cayman) Limited (CICL) to acquire any or all of the Shares of the Bank closed on Wednesday January 30, 2007. A total of 129,804,474 shares were tendered during the Offer Period. CICL took up and paid for all the shares tendered in the offer and as a consequence now owns 91.49% of the shares of FirstCaribbean International Bank Limited. In accordance with the Offering Circular, the purchase price per tendered share was US\$1.6335. CIBC has restated publicly its desire to have FirstCaribbean maintain a strong minority interest.

We are satisfied with our performance in the quarter and thank our customers and staff for their loyalty and support.

Michael K. Mansoor

Chairman

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

January 31, 2007

(expressed in thousands of United States dollars)

Summary of significant accounting policies

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of FirstCaribbean International Bank Limited (the Group) should be read in conjunction with the IFRS consolidated financial statements and notes thereto for the year ended October 31, 2006, included in the Group's Annual Report 2006. For a description of the Group's significant accounting policies, see Note 2 of the aforementioned consolidated financial statements.

Certain financial information, which is normally included in annual financial statements prepared in accordance with IFRS, but not required for interim reporting purposes, has been condensed or omitted. Certain reclassifications have been made to the prior period's financial statements to conform to the current period's presentation. These condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the condensed consolidated financial statements for the interim periods presented.

The results of operations for interim periods are not necessarily indicative of results for the entire year.

In preparing these condensed consolidated financial statements, management is required to make estimates and assumptions which affect amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Transactions affecting year on year comparisons

Change in accounting estmates

Effective November 1, 2007, the Group changed its estimate on the useful life of software which resulted in an increase in the depreciation charge for the first quarter of 2007 in the amount of \$1.6MM.

Loan fee deferrals

In the prior year, in accordance with IAS 18 Revenue, loan fee income, which would have been considered to be an integral part of the effective interest rate of the financial instruments, was deferred and recognised as an adjustment to the effective interest yield on the loan. This adjustment was applied retrospectively and as such, the comparative statements for 2005 were restated. The 2006 previously published comparatives have also been restated to reflect this adjustment.

Amortisation of intangible assets

The customer relationship in relation to the ABN AMRO acquisition fair value exercise resulted in the recognition of an intangible asset in the amount of \$17 million is being amortised through the statement of income based on useful life of six years. No such amortisation was recorded in the prior year as the acquisition was completed effective February 1, 2006 as compared to the current first quarter results which include an amount of \$0.740 million for amortisation.

Change in policy

Effective January 1, 2007 certain changes to the Group's policy re: benefit schemes were made which resulted in the recognition of a curtailment gain of \$15.4 million (net of taxes).

Related party transactions

The agreement with Barclays Bank PLC whereby the Group would receive an annual payment from Barclays Bank PLC of \$10 million as an incentive to retain deposit placements with Barclays Capital expired on December 31, 2005. The comparative period Jan 31, 2006 would therefore include income for the final two months in the amount of \$1.7 million within operating income.
