# **Consolidated Financial Statements**

For the year ended October 31, 2010 (expressed in thousands of United States dollars)

## **CHAIRMAN'S REVIEW**

Net income for the year ended October 31, 2010 amounted to \$157 million, a decrease of \$18 million or 10% year on year. The current adverse economic conditions have impacted the Bank's results.

Total revenues were down by \$16 million or 3%, compared to the prior year, driven by the decline in net interest income stemming from lower average loan and securities volumes and yields; partially offset by higher gains on the sale/repurchase of securities/debt, lower mark to market losses and higher fee income.

Loan loss impairment expenses increased by \$18 million due to the prevailing economic situation. This was almost fully mitigated by the decline in taxation by \$15 million as a result of lower income earned in taxable jurisdictions, as well as, lower operating expenses by \$2 million due to strong cost management.

The Bank remains in a solid financial position with Tier I and Tier I & II capital ratios being 21% and 22% respectively, despite the decline in net income

The Directors have approved the payment of a final dividend of three United States cents per share (US\$0.03 per share) which will be payable to shareholders of record on December 23, 2010 on January 28, 2011. An interim dividend of three United States cents per share (US\$0.03 per share) was paid during the year, bringing the total dividend for 2010 to six United States cents per share (US\$0.06 per share)

We thank the Board, management, staff and our customers for their continuing support.

### FirstCaribbean International Bank Limited

### Chairman's Review For the year ended October 31, 2010 (expressed in United States dollars)

10

Net income for the year ended October 31, 2010 amounted to \$157 million, a decrease of \$18 million or 10% year on year. The current adverse economic conditions have impacted the Bank's results.

Total revenues were down by \$16 million or 3%, compared to the prior year, driven by the decline in net interest income stemming from lower average loan and securities volumes and yields; partially offset by higher gains on the sale/repurchase of securities/debt, lower mark to market losses and higher fee income.

Loan loss impairment expenses increased by \$18 million due to the prevailing economic situation. This was almost fully mitigated by the decline in taxation by \$15 million as a result of lower income earned in taxable jurisdictions, as well as, lower operating expenses by \$2 million due to strong cost management.

The Bank remains in a solid financial position with Tier I and Tier I & II capital ratios being 21% and 22% respectively, despite the decline in net income.

The Directors have approved the payment of a final dividend of three United States cents per share (US\$0.03 per share) which will be payable to shareholders of record on December 23, 2010 on January 28, 2011. An interim dividend of three United States cents per share (US\$0.03 per share) was paid during the year, bringing the total dividend for 2010 to six United States cents per share (US\$0.06 per share).

We thank the Board, management, staff and our customers for their continuing support.
