1. Financial Statements:

S. attached P+L and Balance Sheet.

2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Results of Operations:

In the first quarter of 2011 rental income decreased by 12.67% to EC\$ 1.38 million compared to EC\$ 1.59 million in first quarter of 2010. Total income incl. service recharge, parking and other income decreased to EC\$ 1.52 million (- 10.88%; EC\$ 1.71 million). While these declines are below the prior comparative period, they were expected based on management's assessment of the consequences of the prevailing economic crises in Grenada and as such in line with budget as approved by the Board of Directors in December 2010..

Operational expenses were 14.16% below that of quarter 1 of 2010 and almost in line with the budget for the period. The general expenses increased by 4.32% to EC\$ 0.96 million (EC\$ 0.92 million). The increase was primarily due to higher than expected cost of professional services.

Interest costs totaling to EC\$ 0.72 million were in line with that of quarter 1, 2010 (EC\$ 0.72 million) reflecting the increased short term borrowings over prior years.

Overall, a profit for the period of EC\$ 0.22 million was achieved, which was 33.63% below the result of the same period for 2010 and 10.66% below budget Management will continue to look for ways to further reduce costs.

Balance Sheet and Cash Flows:

The balance sheet has changed due to a lower fair market valuation of its properties. The Company's equity ratios reflect this change with equity financing of less than 50% and the Loan to Value ratio of 48.99% is close to the financial covenants agreed with the bank..

Notably trade receivables have increased to EC\$ 0.30 million (EC\$ 0.24 million) and there's an increase in short term borrowing as result of the increased receivables. The company still faces a tight cash situation. The Company was successful in its negotiations with the bank with regard to support the presumed Bond Issue. Based on investigations the present climate does appear conducive to a favourable response for the bond issue. Therefore concrete steps have been taken to roll out the bond issue before the first half of the year under the management of Global Investments from St. Lucia. The Bond Issue is expected to structurally improve the cash position of the Company due to a substantial decrease of amortization payments if any

Off Balance Sheet Arrangements:

The Company does not have any off-balance sheet arrangements.

3. Disclosure of Risk Factor

No additional risk factors to the ones already stated in the Prospectus dated June 30, 2008 (see attachment Risk Factors), occurred.

4. Legal Proceedings

The Company is not involved in any ongoing legal proceedings other than using its legal rights to enforce compliance with the terms and conditions of the lease against a few tenants.

5. Changes in Securities and Use of Proceeds
