1. Financial Statements:

S. attached I & E and Financial Position.

2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Results of Operations:

Rental income for the period January to September 2013 decreased by 8% to EC\$ 2.98 million compared to the same period of 2012 (EC\$ 3.2 million). Total income incl. service recharge, parking and other income decreased to EC\$ 3.43 million from 2012 (EC\$ 3.57 million). The reduction in total income is primarily due to the granting of non- budgeted and seasonal discounts to distressed tenants. Most of these discounts expire at the end of October, 2013. The 2014 Cruise ship season Begins on November 1st, 2013.

Operational expenses increased minimally by 3% to EC\$ 1.12 million from that of the period January to September of 2012 (EC\$ 1.08 million). Operational expenses for the period was 8% under budget at \$EC\$1.12 whereas budgeted operational expenses for the period was EC\$1.21million. Car park expenses however have increased by 76% to 0.79 million- 2012(0.19 million) and budgeted (0.21 million). The increase in car park expenses is as a result of settlement payments made with respect to parking lot divisions and negotiations. Significant savings (20%) were achieved from initiatives taken to reduce the energy consumption. However, these gains were offset by increases in other expenses.

General expenses decreased by 38% to EC\$ 0.33 million 2012(EC\$ 0.46 million). The reduction was primarily due to decreased banking fees.

Interest costs totaling EC\$ 2.08 million were slightly higher than that of the period January to September of 2012 (EC\$ 2.06 million).

Overall, the company recorded a loss for the period January to September 2013 of EC\$ 0.11 million, a 66% increase in loss position from that of 2012(\$0.03 million). Management continues to implement its vigorous marketing strategy which has already begun to yield new tenants.

Balance Sheet and Cash Flows:

The balance sheet has changed due to a lower fair market valuation of its properties. The Company's equity ratios reflect this change with equity financing of less than 50% and the debt to Equity ratio of 60% which is over the financial covenants agreed with the bank. The shortfall in equity is to be addressed with a share issue in the month of November 2013.

Trade payables have increased to EC\$ 3.14 million from that of December 2012 (EC\$ 2.70 million). The company also showed a decrease in short term borrowing as result of its new arrangement with the bank. Management continues to work with a tight cash situation but is optimistic that the cash situation will continue to improve.

Off Balance Sheet Arrangements:

The Company does not have any off-balance sheet arrangements.

3. Disclosure of Risk Factor
