1. Financial Statements:

S. attached P+L and Balance Sheet.

2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Results of Operations:

In the first half year 2010 rental income increased by 8.76% to EC\$ 3.01 million compared to EC\$ 2.77 million in S1 2010. Total income incl. service recharge, parking and other income was up to EC\$ 3.26 million (+ 8.33%; EC\$ 3.01 million). Although a plus of more than 8% is remarkable, the income did not meet the expectation of the management, which expected EC\$ 3.3 million rental income and total income of EC\$ 3.5 million.

Unfortunately also the costs increased. While the general expenses are in line or below previous year and budget, the operational expenses increased by 8.9% to EC\$ 1.07 million (EC\$ 0.98 million). As mentioned in the previous report, the increase is mainly caused by much higher than expected water and electricity costs.

Interest costs totaling to EC\$ 1.44 million (EC\$ 1.35 million) also were higher due to the increase of the mortgage to refinance the building improvements and increased short term borrowings.

On the bottom line resulted a profit for the period of EC\$ 0.51 million, which was 25.9% above the result of the Q2 2010. However, the profit is lower than expected due to reasons mentioned before. Therefore the Company will still face a challenging second half year 2010, since the recovery of the economic downturn probably will last longer than expected.

Balance Sheet and Cash Flows:

The balance sheet situation more or less stayed the same than by the end of 2009. The Company still has good equity ratios with an equity financing of over 50%. Also the Loan to Value ratio with 45% is well within the covenants of the mortgage financing.

The main difference is the decrease of cash and cash equivalents, which was caused by setting of EC\$ 0.5 million on the amortization reserve account with the mortgage. This amortization reserve account was always shown under cash and cash equivalents although the monies were blocked and therefore not available for the Company. Nevertheless is the tight cash situation still a main problem for the Company.

Therefore, the Company is in negotiations with bank on lowering or waiving the monthly amortizations. The final decision by the bank is expected in the course of August 2010. As an alternative the Company is talking to several parties on a proposed Bond Issue, which was planned for last year but then had to be stopped due to the financial crises.

Off Balance Sheet Arrangements:

The Company does not have any off-balance sheet arrangements.

3. Disclosure of Risk Factor

No additional risk factors to the ones already stated in the Prospectus dated June 30, 2008 (see attachment Risk Factors), occurred.

4. Legal Proceedings

The Company is not involved in any ongoing legal proceedings other than using its legal rights to enforce compliance with the terms and conditions of the lease against a few tenants.

5. Changes in Securities and Use of Proceeds

There have been no changes to number and type of securities since listing in July 2008.

6. Defaults upon Senior Securities

The Company never had any event of default before and since listing in July 2008.

7. Submission of Matters to a Vote of Security Holders

On June 2, 2010 the Annual General Meeting of the Shareholders took place. The Shareholders accepted the Annual Report and followed the proposal of the Board of Directors NOT to pay a dividend for the financial year 2009.
